Oggetto : Abbiamo misurato la potenza assorbita dei PBX Epygi

## **How much power different Quadro products will require from a UPS**

When designing a power-failure-safe installation, it is necessary to know how much power Quadro units will need from a UPS.

The following table will give an overview of that:

<b>Product</b>	<b>Max Power Needed (W)</b>
Quadro2x	3.85
QuadroFXO GW	2.64
Quadro6L	2.64
QuadroM8L	7.08
QuadroISDN GW	6
Quadro4x	10.5
Quadro16x	24
QuadroE1/T1 GW	6.85
QuadroM E1/T1 GW	8.4
QuadroM26x	30.24
QuadroM32x	9
